☎ +92-308-4546955

📍 Lahore, Punjab

### Hard Skill

- Web Development
- Database Management System
- Data Structures
- Object Oriented Programming
- Functional Programming

### Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

### Education Background

- University of Engineering and Technology  
*Bachelor in Computer Science*
- Govt. Shalimar College For Boys  
*Faculty of Science (Engineering)*  
Completed in 2022
- New English Secondary School  
*Matric*  
Completed in 2020

### About Me

Nowadays, I am an undergraduate student of computer science at the University of Engineering and Technology, Lahore Narowal campus. I have high expertise in front-end web development and I also completed many interactive projects using HTML, CSS, and Javascript. I also have high enthusiasm for Artificial intelligence and Machine Learning. I also developed some soft skills like communication, teamwork, and team management from the prestigious institute of Pakistan. I also have a spark to learn some new skills and see myself as an ML Engineer and Full Stack Developer in the next five years. Performing 4 weeks virtual internship at CodSoft as a Web Developer.

### Projects

#### Quiz App System

The CLI-based system is used for the assessment of students. The key features:

- Authorization process
- Used functional programming in C++
- Interactive way for quizzes
- Separate portions for separate type of questions

#### Result System

The frontend page of the online result system. The key features :

- Used jQuery library
- Used object oriented programming in JavaScript
- Responsive Design

#### Showroom Mangment System

The CLI-based management system is used for tasks for managing different things in a automotive showroom. The key features :

- Multi-function system
- Used object-oriented programming in C++
- Easy to use
- Excellent for data handling
